- ② **FR Notice de montage de la serre de jardin Green Protect 248x368cm - 9,13m<sup>2</sup>**
- ③ **DE Aufbauanleitung für das Gewächshaus Green Protect 248x368cm - 9,13m<sup>2</sup>**
- ④ **IT Istruzioni di montaggio della serra da giardino Green Protect 248x368cm - 9,13m<sup>2</sup>**
- ⑤ **ES Instrucciones de montaje del invernadero Green Protect 248x368cm - 9,13m<sup>2</sup>**

## IMPORTANT

Please read the assembly instructions carefully before you start to assemble this greenhouse and follow the instructions step by step. Keep the instruction in a safe place for future reference.

### Safety Advice:

1. Allow at least a half a day to assemble the greenhouse by 2-3 persons.
2. Do not attempt to assemble the greenhouse in windy or wet conditions.
3. Wearing work gloves, shoes, long sleeves and safety goggles during assembly.
4. Do not attempt to assemble this greenhouse if you are tired, have taken drugs or alcohol or if you are prone to dizzy spells or distracted from the job at hand.
5. Maintain a safe working environment. Make sure there's adequate surrounding work-space. Keep the work area tidy (free of obstructions, grease, oil, trash and other debris).
6. Keep children and pets away from the assembly area.
7. If using a step ladder or power tools ensure that you follow the manufacturer's safety advice.
8. Do not lean against or push the greenhouse during construction.
9. Dispose of all plastic bags. Keep them out of reach of small children.
10. Hot items such as recently used grills, blowtorches etc. must not be stored in the greenhouse.
11. This product is designed to be used mainly as a greenhouse.

### Selecting a Site:

Make sure the greenhouse is located on a flat, level surface. Choose a sunny position away from overhanging trees. Do not position the greenhouse in an area exposed to excessive wind.

### Assembly Advice:

1. Before you start, separate and identify all the parts against the parts list. Keep all small parts (screws etc.) in a bowl so they do not get lost.
2. The UV-protected side of the panel is covered with opal white film and must face towards the sun. Use a marker to place a small "x" on the bottom corner of each face to signify UV coated side. Remove approximately 5 cm of film from all sheet edges before installing. Removing all film immediately after the construction is completed.
3. Tighten all screws once assembly is completed. Please note: Anchoring the greenhouse to the ground is essential to its stability and rigidity.

### Maintenance:

1. When your greenhouse needs to be cleaned, use a mild detergent solution and rinse with cold clean water.
2. Keep the door tracks clear of dirt and other stuff that prevent them from sliding easily.
3. In areas where there's snow, we recommend the following to protect the greenhouse:
  - \* Support the ridge at the center of the greenhouse.
  - \* Silicone all panels.
  - \* Remove snow loads timely.

## IMPORTANT

Veillez lire attentivement le manuel avant de commencer le montage de cette serre et suivez les instructions étape par étape. Gardez ce manuel après le montage pour toute demande ultérieure.

### Conseils de sécurité :

1. Il faudra compter 1/2 journée à 2 ou 3 personnes pour procéder au montage de cette serre.
2. Ne pas tenter de monter la serre en cas de vent ou de risque de pluie.
3. Portez des gants, des lunettes et des chaussures de sécurité ainsi que des vêtements à manches longues pour procéder au montage.
4. Ne commencez pas le montage de la serre si vous êtes fatigués, sous l'emprise de l'alcool ou de la drogue, ou si vous êtes sujets à des étourdissements ou si vous pouvez être distraits.
5. Assurez un périmètre de sécurité. Gardez la zone de travail propre et bien rangée (sans obstruction, graisse, huile, déchets et autres débris).
6. Maintenez les enfants et animaux à distance du chantier.
7. Si vous utilisez un escabeau ou des outils électriques, veillez à respecter les consignes de sécurité du fabricant.
8. Ne vous appuyez pas sur la serre ou ne poussez pas la serre pendant la construction.
9. Jeter tous les sacs en plastique. Gardez-les hors de portée des jeunes enfants.
10. Les articles dégageants de la chaleur tels que des grilles récemment utilisées, des chalumeaux, etc. ne doivent pas être rangés dans serre.
11. Ce produit est conçu pour être utilisé principalement en serre de culture.

### Sélection du lieu d'implantation :

Assurez-vous que la serre est située sur une surface plane et à niveau. Choisissez une position ensoleillée, évitez les arbres en surplomb. Ne placez pas la serre dans une zone exposée aux vents excessifs.

### Conseils de montage :

1. Avant de commencer, séparez et identifiez toutes les pièces par rapport à la liste de pièces que vous trouverez ci-après. Conservez toutes les petites pièces (vis, etc.) dans un bol pour ne pas les perdre.
2. La face du panneau protégée contre les rayons UV est recouverte d'un film blanc opaque et doit être tournée vers le soleil. Utilisez un marqueur pour placer un petit "x" dans le coin inférieur de chaque face pour indiquer le côté traité anti UV, au cas où vous ayez besoin de les replacer ultérieurement. Retirez environ 5 centimètres de film sur tous les bords du panneau avant de l'installer. Enlever tout le film immédiatement après installation.
3. Serrez toutes les vis une fois l'assemblage terminé. Veuillez noter : Ancrer la serre au sol est essentiel à sa stabilité et à sa rigidité.

### Entretien :

1. Lorsque votre serre a besoin d'être nettoyée, utilisez une solution détergente douce et rincez-la avec une eau propre et froide.
2. Gardez les rails de la porte exempts de saleté et autres objets qui les empêcheraient de glisser facilement.
3. Pour protéger la serre, nous recommandons les éléments suivants dans les zones enneigées :
  - \* Soutenir la crête au centre de la serre.
  - \* Joints silicone entre les panneaux et l'armature
  - \* Dégager immédiatement la neige de la toiture pour éviter une charge trop importante.

## WICHTIG

Bitte lesen Sie sich die Montageanweisungen aufmerksam durch, bevor Sie mit dem Aufbau des Gewächshauses beginnen und halten Sie sich bei dem Aufbau an die angegebene Reihenfolge der Schritte. Bewahren Sie diese Aufbauanleitung nach der Montage auf.

### Sicherheitshinweise:

1. Für den Aufbau sind 1/2 Tag und 2 bis 3 Personen notwendig.
2. Bauen Sie das Gewächshaus nicht bei Wind oder Regen auf.
3. Tragen Sie Sicherheitshandschuhe, -schuhe und eine Sicherheitsbrille sowie Kleidung mit langen Ärmeln zum Schutz bei der Montage.
4. Bauen Sie das Gewächshaus nicht auf, wenn Sie unter Einfluss von Müdigkeit, Drogen oder Alkohol stehen oder wenn Sie unter Schwindel leiden oder abgelenkt sind.
5. Schaffen Sie einen Sicherheitsbereich. Halten Sie den Arbeitsbereich sauber und aufgeräumt sowie frei von Hindernissen, Fett, Öl oder Abfällen.
6. Halten Sie Kinder und Tiere von der Baustelle fern.
7. Wenn Sie eine Trittleiter oder elektrische Werkzeuge benutzen, beachten Sie die Sicherheitshinweise des Herstellers.
8. Lehnen Sie sich nicht gegen das Gewächshaus und drücken Sie während des Aufbaus nicht dagegen.
9. Werfen Sie alle Plastiktüten weg und halten Sie sie außer Reichweite von Kleinkindern.
10. Hitze abstrahlende Gegenstände wie kürzlich benutzte Grills dürfen nicht in dem Gewächshaus gelagert werden.
11. Dieses Produkt ist hauptsächlich für die Anzucht von Pflanzen ausgelegt.

### Wahl des Aufbauorts:

Vergewissern Sie sich, dass das Gewächshaus auf einer ebenen und waagrecht ausgerichteten Oberfläche steht. Wählen Sie einen sonnigen Ort ohne überhängende Äste. Bauen Sie das Gewächshaus nicht an einem Ort auf, der starkem Wind ausgesetzt ist.

### Aufbauhinweise:

1. Bevor Sie mit dem Aufbau beginnen, kontrollieren Sie alle Teile mithilfe der unten stehenden Stückliste. Bewahren Sie alle Kleinteile (Schrauben etc.) in einem Behältnis auf, um sie nicht zu verlieren.
2. Die anti-UV-behandelte Seite der Paneele ist mit einem weißen Schutzfilm bedeckt und muss gegen die Sonne gerichtet sein. Markieren Sie diese Seite auf jedem Paneel unten an der Seite mit einem "x", sodass Sie die UV-beständige Seite bei Bedarf später wiedererkennen. Entfernen Sie ca. 5cm des Schutzfilms an allen Enden, bevor Sie sie anbringen. Entfernen Sie den Schutzfilm vollständig, sobald die Montage beendet ist.
3. Ziehen Sie alle Schrauben fest, sobald die Montage beendet ist. Beachten Sie: Die Verankerung des Gewächshauses im Boden ist unabdingbar für seine Stabilität.

### Instandhaltung:

1. Wenn Ihr Gewächshaus gereinigt werden muss, verwenden Sie ein sanftes Reinigungsmittel und spülen Sie es mit sauberem und kaltem Wasser ab.
2. Halten Sie die Führungen der Schiebetüren frei von Schmutz und Gegenständen, die das Schließen der Türen behindern könnten.
3. Zum Schutz des Gewächshauses empfehlen wir in schneereichen Gegenden Folgendes:
  - \* Den First im Inneren des Gewächshauses unterstützen
  - \* Silikonfugen zwischen Paneelen und Gestell
  - \* Schnee umgehend von dem Dach zu entfernen, um zu große Schneelasten zu vermeiden

Si prega di leggere attentamente il manuale prima di iniziare il montaggio di questa serra e seguire le istruzioni passo dopo passo. Conservare questo manuale dopo il montaggio per future consultazioni.

**Consigli di sicurezza:**

1. Bisogna calcolare mezza giornata in due o tre persone per montare questa serra.
2. Non tentare di installare la serra in caso di vento o rischio di pioggia.
3. Indossare guanti, occhiali di sicurezza, scarpe di sicurezza e indumenti a maniche lunghe durante il montaggio.
4. Non iniziare a costruire la serra se siete stanchi, sotto effetto di alcool o droghe, o se siete inclini alle vertigini o se potete essere distratti.
5. Garantire un perimetro di sicurezza. Mantenere l'area di lavoro pulita e ordinata (senza ostruzioni, grasso, olio, rifiuti e altri detriti).
6. Tenere i bambini e gli animali lontani a distanza
7. Se si utilizzano una scala a gradini o utensili elettrici, assicurarsi di seguire le istruzioni di sicurezza del produttore.
8. Non appoggiarsi alla serra o spingere la serra durante la costruzione.
9. Eliminare tutti i sacchetti di plastica. Tenerli fuori dalla portata dei bambini piccoli.
10. Gli oggetti che rilasciano calore come griglie, torce, ecc. usati di recente non dovrebbero essere messi nella serra.
11. Questo prodotto è stato progettato per essere utilizzato principalmente nelle serre per coltura.

**Scelta della posizione:**

Assicurarsi che la serra si trovi su una superficie piana e livellata. Scegliere una posizione soleggiata, evitare gli alberi rampicanti. Non collocare la serra in un'area esposta a venti eccessivi.

**Istruzioni di montaggio:**

1. Prima di iniziare, separare e identificare tutti i pezzi presenti nell'elenco dei pezzi che troverete qui di seguito. Conservare tutte le piccole parti (viti, ecc.) in una ciotola per evitare di perderle.
2. Il lato frontale del pannello protetto dai raggi UV è ricoperto da una pellicola bianca opaca e deve essere rivolto verso il sole. Utilizzare un pennarello per scrivere una piccola "x" nell'angolo inferiore di ogni lato per indicare quale lato è trattato contro i raggi UV, nel caso in cui sia necessario sostituirli successivamente. Rimuovere circa 5 centimetri di pellicola da tutti i bordi del pannello prima di installarla. Rimuovere tutta la pellicola subito dopo l'installazione.
3. Serrare tutte le viti al termine del montaggio. Nota bene: l'ancoraggio della serra al suolo è essenziale per la sua stabilità e rigidità.

**Manutenzione:**

1. Quando la serra ha bisogno di essere pulita, usare una soluzione detergente delicata e risciacquarla con acqua fredda e pulita.
2. Mantenere i binari della porta liberi da sporcizia e da altri oggetti che impedirebbero loro di scivolare facilmente.
3. Per proteggere la serra, nelle zone innevate consigliamo quanto segue:
  - \* Sostenere il colmo al centro della serra.
  - \* Guarnizioni in silicone tra i pannelli e l'armatura
  - \* Rimuovere immediatamente la neve dal tetto per evitare un carico eccessivo.

Lee el manual detenidamente antes de comenzar a montar este invernadero y sigue las instrucciones paso a paso. Guarda este manual después del montaje para cualquier futura duda.

**Consejos de seguridad:**

1. Hay que contar con medio día y de 2 a 3 personas para proceder con el montaje del invernadero.
2. No intentes montar el invernadero en condiciones de viento o lluvia.
3. Usa guantes, gafas, botas de protección, y ropa de manga larga para el ensamblaje.
4. No montes el invernadero si estás cansado, bajo la influencia del alcohol o las drogas, o si estás mareado o distraído.
5. Asegura un perímetro de seguridad. Mantén el área de trabajo limpia y ordenada (sin obstrucciones, grasa, aceite, basura y otros residuos).
6. Mantén a los niños y animales alejados del lugar de trabajo.
7. Si usas una escalera de mano o herramientas eléctricas, asegúrate de seguir las instrucciones de seguridad del fabricante.
8. No te apoyes en el invernadero ni lo empujes durante la construcción.
9. Desecha todas las bolsas de plástico. Manténlas fuera del alcance de los niños pequeños.
10. Los productos que generen calor como rejillas utilizadas recientemente, sopletes, etc. no se pueden guardar en el invernadero.
11. Este producto está diseñado para ser usado como un invernadero de cultivo.

**Selección de la ubicación:**

Asegúrate de que el invernadero esté en una superficie plana y nivelada. Elige una posición soleada, evita los árboles que sean más altos. No coloques el invernadero en un área expuesta a vientos excesivos.

**Consejos de montaje:**

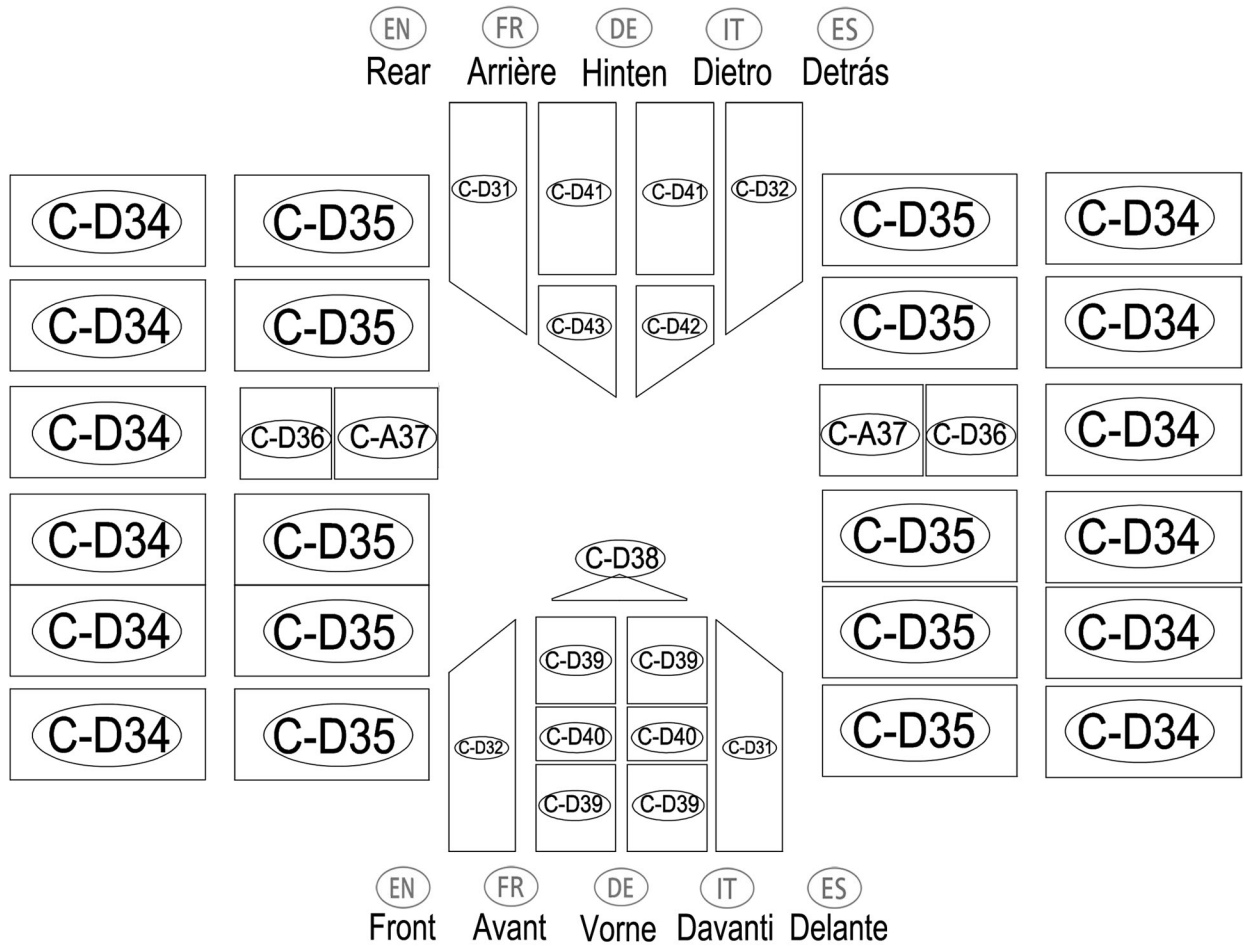

1. Antes de comenzar, separa e identifica la lista de piezas a continuación. Mantén todas las piezas pequeñas (tornillos, etc.) en un recipiente para evitar perderlas.
2. La cara del panel protegido contra los rayos UVA está cubierta con una película blanca opaca y debe estar orientada hacia el sol. Usa un marcador para colocar una pequeña "x" en la esquina inferior de cada lado para indicar el lado tratado con UVA, en caso de que necesites reemplazarlos más tarde. Retira alrededor de 5 pulgadas de película en todos los bordes del panel antes de instalar. Retira toda la película inmediatamente después de la instalación.
3. Aprieta todos los tornillos después de completar el ensamblaje. Ten en cuenta que: anclar el invernadero al suelo es esencial para su estabilidad y rigidez.

**Mantenimiento:**

1. Cuando vayas a limpiar el invernadero, usa un detergente suave y enjuagua con agua limpia y fría.
2. Mantén los rieles de las puertas libres de suciedad y otros objetos que impidan que se deslicen fácilmente.
3. Para proteger el invernadero, recomendamos lo siguiente en áreas que haya nieve:
  - \* Apoyar la cresta en el centro del invernadero.
  - \* Juntas de silicona entre los paneles y el marco.
  - \* Limpiar inmediatamente la nieve del techo para evitar una carga excesiva.

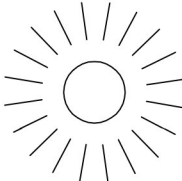

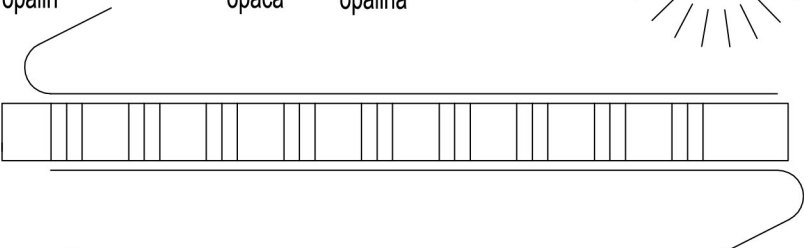

**Note / Beachten Sie / Nota:**

- (EN) Remove about 5cm of film from all sheet edges before installing. Remove all film immediately after the construction completed.
- (FR) Éloignez environ 5 cm de film sur les bords des panneaux avant installation. Puis retirez le film complètement immédiatement après la pose des panneaux.
- (DE) Entfernen Sie ca. 5cm des Schutzfilms an allen Enden der Paneele, bevor Sie sie anbringen. Entfernen Sie den Schutzfilm vollständig, sobald die Montage der Paneele beendet ist.
- (IT) Rimuovere circa 5 cm di pellicola dai bordi dei pannelli prima dell'installazione. Quindi ritirare la pellicola completamente immediatamente dopo aver installato i pannelli.
- (ES) Retira unos 5 cm de película de los bordes de los paneles antes de la instalación. Luego retira la película por completo inmediatamente después de instalar los paneles.

<p>The UV-protected side of the sheet is covered with opal white film and must face towards the sun.</p>	<p>Le côté traité anti-UV de la plaque est recouvert du film blanc opalin et doit être placé face au soleil.</p>	<p>Die anti-UV-beschichtete Seite ist mit dem weißen Schutzfilm bedeckt und muss gegen die Sonne gerichtet sein.</p>	<p>Il lato trattato contro i raggi UV della piastra è ricoperto da una pellicola bianca opaca e deve essere posizionato verso il sole.</p>	<p>El lado de la placa con tratamiento anti-UVA está cubierto con una película blanca opalina y debe colocarse mirando hacia el sol.</p>		

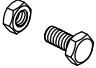

- EN Advice :** For additional strength, you can also use some suitable glue or tapes between the polycarbonate panel and the aluminium frame enhance the stability.  
**Note :** Silicone sealant and glue gun are not included in our tool kit. You can buy them locally.  
**Only use silicone sealant that is suitable for aluminium and polycarbonate.**
- FR Conseils:** Pour renforcer la résistance de la serre, vous pouvez également utiliser du silicone à placer entre les panneaux et l'armature de la serre.  
**Note :** Le silicone et le pistoler à colle ne sont pas inclus dans notre kit d'accessoires. Vous pourrez vous en procurer en magasin de bricolage près de chez vous.  
**N'utiliser que du silicone adapté à l'aluminium.**
- DE Hinweise:** Um die Stabilität des Gewächshauses zu erhöhen, können Sie Silikon zwischen den Paneelen und dem Gestell verwenden.  
**Beachten Sie:** Silikon und Klebepistole sind nicht im Lieferumfang inbegriffen. Sie können im Baumarkt in Ihrer Nähe erworben werden.  
**Verwenden Sie ausschließlich für Aluminium geeignetes Silikon.**
- IT Consigli:** Per aumentare la resistenza della serra, si può utilizzare il silicone da mettere tra i pannelli e la struttura della serra.  
**Nota:** Il silicone e la pistola per la colla non sono inclusi nel nostro kit di accessori. E' possibile acquistarne in un qualsiasi negozio di bricolage.  
**Utilizzare solamente del silicone adatto all'alluminio.**
- ES Consejos:** Para aumentar la resistencia del invernadero, también puedes usar silicona para colocarla entre los paneles y el marco del invernadero.  
**Nota:** La pistola de silicona y el pegamento no están incluidos en nuestro kit de accesorios. Puedes conseguirlo en una tienda de bricolaje cercana.  
**Utiliza únicamente silicona adecuada para el aluminio.**
